

## Environmental Policy – ISO 14001: 2015

McCarthy Contractors (Bridgend) Ltd is an environmentally friendly contracts organisation, which due to our size and nature of the activities the organisation has some significant environmental impacts affecting the local and global environment. Some of these environmental impacts include the use of natural resources, the consumption of energy and water, the production of a variety of waste, not to mention the number of staff, and visitors travelling to and from the organization and clients sites each day.

The organisation recognises it has a significant impact on the local and global environment and has made a corporate commitment to improving its environmental performance by signing up to an Environmental Policy.

The Environmental Policy has been in place a number of years and contains the following main principles:

- Encourage staff involvement in environmental issues through education as well as appropriate information, training and participation exercises;
- Promote energy conservation by efficient use, careful planning and design with due regard to improved energy utilisation, product life cycle and appropriate investment in energy efficient measures;
- Minimise waste and ensure that there is effective control, which promotes recycling where possible and provides responsible disposal, particularly with regard to hazardous wastes;
- Promote environmentally responsible policies in all its commercial activities, including purchasing and investment.
- Strive to eliminate the release of pollutants, to be achieved by application of discharge controls, and also by initial assessment and continuing evaluation of the appropriateness of and need for any activity which could have an impact on the environment;
- Adopt an environmentally sound transport strategy;
- Adopt policies which consider the visual impact of the organizations activities;
- Take into consideration the likely environmental effect of the organizations activities and developments on the local community.
- Has a commitment to fulfil legal and compliance obligations.

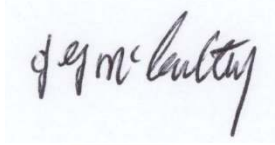

Expect similar environmental standards from all parties with whom the organisation deals.

McCarthy Contractors (Bridgend) Ltd Management Team has responsibility for implementing the environmental policy throughout the organisation and its activities. In order to establish action plans for improvements a number of other policies such as transport, energy and waste have been developed that outline short, medium and long-term objectives and targets to be achieved and the success of these is reviewed on a regular basis.

McCarthy Contractors (Bridgend) Ltd Environmental Policy along with more information about what the organisation is doing to improve its environmental performance is provided to interested parties including information on how staff help the organisation maintain its environmental performance.

Signed

J.G. McCarthy  
Managing Director
